Chicano, or Chicana, is a chosen identity of some Mexican Americans in the United States. Chicano or Xicano are sometimes used interchangeably with Mexican-American and both names exist as chosen identities within the Mexican-American community in the United States. Although Chicano had negative connotations as a term of denigration prior to the Chicano Movement, it was reclaimed in the 1960s and 1970s by Mexican Americans to express self-determination and solidarity in a shared cultural, ethnic, and The Chicano Movement of the 1960s, also called the Chicano civil rights movement or El Movimiento, was a civil rights movement extending the Mexican-American civil rights movement of the 1960s with the stated goal of achieving Mexican American empowerment. Similar to the Black Power movement, scholars have also written about the repression and police brutality experienced by members of this movement which some connect to larger government-organized activity such as COINTELPRO. The Chicano Worker is an incisive analysis of the labor-market experiences of Mexican American workers in the late twentieth century. The authorsâ€”each established in the fields of labor economics and research on Chicano workersâ€”describe the major employment patterns of the Chicano labor force and discuss the historical and institutional factors determining these patterns.
