Alta California became Mexican territory in 1821 and then came under U.S. authority after the Mexican-American War in 1848. Since then Bouchard has come to be viewed by some as a pirate more than a patriot. First-person interviews of people who survived the attack, chronicled in early histories of California, refer to Bouchard that way, Middleton-Tidwell says. The 200th anniversary re-enactment is aimed at dispelling those early impressions. While the attack on the California coast 200 years ago might be a footnote in state history, Bouchard is known as a national hero in Argentina, Melzer said. Other Californians

If California was an exciting and hospitable place for newcomers, it no longer served the needs of groups that had lived there before the Gold Rush. Every year, illness and armed skirmishes took their toll on the Native Americans in the state. The Spanish, Mexicans, and mission fathers had confined their activities to the coast, and the tribes and clans inland had suffered comparatively. The Turn of the Century in California

A California Kaleidoscope: 1919â€”29. The end of World War I brought a mood of celebration to the United States that lasted a decade. The â€œRoaring Twentiesâ€ were a time of heady optimism, nowhere felt with more fervor than in California. During this decade large numbers of Americans, including Latter-day Saints, sought to realize their dreams in the Golden State.Â This period of California Church history ended abruptly with the stock market crash in the fall of 1929. Just over two years later, seventy-three-year-old Joseph W. McMurrin was honorably released as mission president because of ill health.Â [1] David Lavender, *California: A Bicentennial History* (New York: W. W. Norton, 1976), 175.
