Developments in Jewish communities around the world are reported in articles about Canada, Great Britain, the Netherlands, France, Italy, Germany, the former Soviet Union, various countries of Eastern Europe, South Africa, and Australia.

Updated estimates for the U.S. Jewish population are provided by Barry Kosmin and Jeffrey Scheckner and for the world Jewish population by U.O. Schmelz and Sergio Della-Pergola.

Carefully compiled directories of national Jewish organizations, periodicals, and federations and welfare funds, as well as religious calendars and obituary notices, round out this highly regarded reference work.

**THE STANDARD, AUTHORITATIVE RECORD** of events and trends in American and world Jewish life. Communal workers, librarians, clergy, journalists, teachers, and students will welcome the **YEAR BOOK** as an invaluable reference tool. The general reader interested in Jewish life will find the special features and reviews stimulating, informative, and lucid.

Special summaries, analyses, reports, directories, lists, tables, calendars, statistics, index. Attractively designed, the **AMERICAN JEWISH YEAR BOOK** is a welcome addition to every reference shelf and home library.

Minutes and Reports. The American Jewish Year Book, 5681. The American Jewish Year Book, 5681 September 13, 1920, to October 2, 1921 by Harry Schneiderman. Vol. 22. The past five issues of the Year Book were prepared during the World War, and the influences of the period were reflected in the contents of the issues from 5676 to 5680, not alone in the chronology but also in the articles. In this volume we publish an article on the progress of Jewish social research in the United States, in which the author, Mr. Hyman Kaplan, Assistant Executive Director of the Bureau of Jewish Social Research, traces the history of attempts at coordination among these societies, and outlines the development of a central agency for the scientific study of social problems arising. Selected articles of interest in recent volumes of the American Jewish Year Book. Article. Full-text available. A convergence of three developments—the American Jewish community's maturing self-awareness, the growth of Jewish communal service as a professional field, and the emergence of Jewish political studies as an academic discipline—makes possible a new emphasis on serious study of the Jewish political tradition as a key component in the training of youth. The changing character of American Jewish leadership: some policy implications. Article. Jonathan Woocher. The study of policy-making in the Jewish community is a generally neglected area in contemporary research on Jewish life.
