Introduction to library collection assessment. Collection development is a planning function that is necessary for the systematic building of library collections. It usually includes such traditional functions as selection, acquisition, assessment, gifts and exchange, conservation, preservation, and weeding. It may also be extended to include cooperative collection development activities through both formal and informal resource sharing efforts.Â Hall, Blaine H. Collection Assessment Manual for College and University Libraries. Phoenix: Oryx Press, 1985. Henderson, William A., W.J. Hubbard and Sonja L. McAbee.
