To disable commenting manually, find the image in the WordPress Media Library and edit the image. Once the Edit Media page has loaded for the image you will need to first display the Discussion box if it’s not already displayed. To do this, click on Screen Options at the top right hand side of the page and then click the checkbox next to the word Discussion. Once you’ve done that, scroll to the bottom of the page and find the Discussion box and uncheck Allow Comments. And now, all that’s left to do is to hit the Update button and you’re done. Wrapping It Up. This isn’t the perfect solution to return $author ;} Your results may of course vary depending on your installation and whatever particular requirements you may have added 1) for commenting (i.e., “anyone” vs “registered only”) and 2) for signing up (are First and Last Name required to register?). Additionally, in a full installation, you might want to adjust the user profile page, where the user selects a “display name.” If you’re going to display firstname/lastname instead then it’d be best to deal with that one way or another - by restricting choices, for example, or by adjusting labe Upload your media. Re-enable comments for new posts if you wish. Method 2: Close Comments on Each Media or Attachment Pages Individually. It’s possible to go to post details page of each media or attachment, and disable their comments and/or trackbacks and pingbacks feature. Go to Media -> Library. Open each media, and then go to Edit more details link.Â If you have hundreds or thousands of media uploaded with comments opened, unfortunately, WordPress does not provide an easy way to close the comments on media attachments page for existing media. However, WordPress API provides hooks which can be used to close and disable the comments features on all media pages and attachments globally and automatically.
def comments = ComponentAccessor.commentManager.getComments(issue) if (comments) { return comments.last().authorFullName }

Hope that helps. View More Comments. You must be a registered user to add a comment. If you've already registered, sign in. Otherwise, register and sign in. Comment. Alejo Villarrubia [Adaptavist] Mar 25, 2015. I just updated my answer to avoid getting nPE when there are no comments in the issues. You must be a registered user to add a comment. If you've already registered, sign in.Â

@Alejo Villarrubia [Adaptavist] is there a way to add "last comment + author's name", using single scripted field? You must be a registered user to add a comment. If you've already registered, sign in.
wpDiscuz Comment Author Info addon is designed to provide extended details about comment authors. Comment Author profile, activity, votes and subscriptions. WordPress Comment System has a lack of information about comment authors, people only see commenter name and avatar. wpDiscuz Comment Author Info addon is designed to provide extended details about comment authors. Using this addon people will be able to see comment author extended profile, activity, votes and subscriptions. Click on comment author info icon and open pop-up window with according tabs. In Profile tab you can see commenter quick statistic (number of comments, posts, likes, dislikes), biography, etc.
