## Children's Literature in Grades K-2

In the second edition of *Investigations*, a selection of children's literature relating to the mathematical content of a specific unit is included in every Family Letter. These books are offered as one of the ways that families can support their child's mathematical experiences at home. Many teachers also like to display a selection of these books on the classroom bookshelf over the course of the unit. In Kindergarten-Grade 2, occasionally a book is suggested as part of a math lesson and several titles are suggested to the teacher. The use of literature is offered as a suggestion for introducing an idea or activity and is thus considered an optional material rather than the centerpiece of a math lesson.

**The following is a list of Kindergarten units that include suggestions for using children's literature.**

**Unit 2, *Counting and Comparing***, suggests using a book about a character with a very long name. Suggestions include *Chrysanthemum* by Kevin Henkes, *Rumpelstiltskin* by Paul O. Zelinsky or Jacob Grimm or *Tikki Tikki Tembo* by Arlene Mosel (optional)

**Unit 3, *What Comes Next?***, suggests using a book about observing such as *I Am Eyes \* Ni Macho*; *Brown Bear, Brown Bear, What Do You See?*; or *I Went Walking* (optional)
