EDUCATION

PhD, University of British Columbia. Civil Engineering (water resources/ecological modeling)

MS, Colorado State University. Watershed Management

AB, Dartmouth College. Geology

CURRENT POSITION

1999- Associate Professor, Community and Regional Planning Program, School of Architecture and Planning, University of New Mexico. Watershed management, regional studio, introduction to environmental problems, modeling the environment, foundations of natural resources planning, field methods.

PAST UNIVERSITY OF NEW MEXICO POSITIONS

2005-06 Sabbatical Visiting Scientist, Food and Agriculture Organization of the United Nations, Rome, Italy and the International Centre for Integrated Mountain Development, Kathmandu, Nepal.

1997-99 Visiting Associate Professor, School of Architecture and Planning, University of New Mexico. Watershed management, site and environment, planning studio, introduction to environmental problems, methods of natural resources planning, land restoration planning, economic development for planners, land and water economics, introduction to planning.

1994-97 Visiting Research Professor, School of Architecture and Planning, University of New Mexico.

1991-94 Adjunct Professor, Graduate Program in Water Resources, University of New Mexico. Interdisciplinary courses in water resources planning, watershed management, watershed and groundwater modeling, field methods in water resources assessment. Member Steering Committee.

LANGUAGES

first, English; second, Spanish.

AWARDS

2007 Faculty Acknowledgement Award, University of New Mexico Libraries.

1999 New Mexico Chapter of the American Planning Association, Award for Excellence: Public Education About Planning (excellence in public/private partnerships: New Mexico Watershed Watch).

1999 Dean's Award for Excellence in Teaching, School of Architecture and Planning, University of New Mexico.

1998 New Mexican Riparian Council Award for Public Awareness/ Education; founder and director of New Mexico Watershed Watch Program.

1997 Dean's Award for Excellence in Teaching, School of Architecture and Planning, University of New Mexico.

1997 National Endowment for the Humanities Fellowship to teach nature writing in environmental studies courses. Vassar College.

1995 Fulbright Scholar. Teaching/research award to initiate collaboration with the Escuela Politecnica Nacional, Quito, Ecuador. Presented courses on watershed modeling and management, directed graduate students in watershed modeling, monitored and modeled environmental impacts of a proposed reservoir in a critical watershed. Negotiated convenio between EPN and UNM (Spanish).

1979 and 1980 Professional Associate Awards, Environment and Policy Institute, East-West Center, Honolulu, Hawaii.. Developed environmental policy and cost-benefit analyses of watershed restoration projects in Nepal and Ecuador.

FUNDED RESEARCH

2011. Principal Investigator, Living Roof Demonstration and Research. \$1,500 Research and Creative Work grant from UNM School of Architecture and Planning.

2011-2012. Collaborator, USDA Hispanic-Serving Institutions Education Grants Program (HIS/National Institute of Food and Agriculture). \$290,000 award to UNM Sustainability Studies Program.

2009-2013 Co-principal Investigator (with J. Rivera). Socioeconomic and hydrologic impacts of projected climate change on acequia systems in northern New Mexico. National Science Foundation award to support undergraduate and graduate students, \$144,825.

2008-2009 Principal Investigator, Alternative Stormwater Management Research Project. \$5,000 award from the New Mexico Water Resources Research Institute to support Katherine Labadie's professional project research.

2007-2009 Principal Investigator, Living Roof on Pearl Hall, \$15,000. McCune Foundation.

2006-2008 Co-Investigator (with J. Rivera). Mora Watershed Evaluation Project. \$15,000 to support graduate students, \$12,000 for water quality equipment, travel and presentation at conferences.

2002-2003 Principal Investigator: River Source/NM Game & Fish, \$13,100 (\$3500 to support a CRP graduate assistant): environmental education project to continue Watershed Watch program, teaching middle and high school teachers and students to monitor water quality and watershed health in 20 NM watersheds where schools are located and where land use issues impact water quality and riparian health.

2002-2003 Co-Investigator (with David Henkel): NM Comprehensive Outdoor Recreation Plan, \$110,000 (supporting 4 CRP graduate students): to update the state's outdoor recreation plan, including a public participation component and an inventory of the state's facilities, wetlands and trails.

2002-2004 Co-Investigator (with Michael Campana, Michelle Minnis and others), US Agency for International Development Program "Institutional Partnerships in Higher Education for International Development," \$100,000: to establish a Central American Water Resources Development Center with the Escuela Agricola Panamericana (Zamorano) in Honduras.

2002-2004 Faculty Participant (Principal Investigator: Teresa Cordova), Bernalillo County and City of Albuquerque \$78,410 (supporting CRP graduate students): South Valley Water Utilities Extension Project, public involvement program to ensure that residents are basing their perspectives on their own values and available technical information.

2002-2004 Faculty Participant (with Michael Campana and others), funded by NATO, Science for Peace Programme and the Organization for Security and Cooperation in Europe (\$370,000, with \$42,000 allocated to the US): South Caucasus River Monitoring Project to assist the Republics of Armenia, Azerbaijan and Georgia in watershed management and STELLA water resources modeling.

2002 Travel Grant from Water Resources Program for March field trip to Rio Gavilan watershed in northern Chihuahua with 20 students, \$500: watershed health survey of watershed 75 years after Aldo Leopold's essay Song of the Gavilan described ecological health; survey of riparian health and watershed condition.

2002 NM Game & Fish grant, \$200: recording rain gage for School of Architecture & Planning; initiation of environmental monitoring plan for new School of Architecture and Planning building.

2002 UNM Extended University, Distance Learning Program, \$3,000: adapting Watershed Management course for Distance Learning to reach communities (Los Alamos, Santa Fe, Socorro, Las Cruces, Taos).

1997-01 NM Department of Game & Fish, \$216,000 to continue watershed monitoring program (Watershed Watch); awards for excellence NM Chapter of the American Planning Association (Public Education) and the NM Riparian Council (Environmental Awareness and Education).

1997-98 McCune Foundation, \$9,000 to teach watershed planning methods to St. Catherine Indian School, development of a Nambe Watershed Management Plan (with R. Schrader)

1996-97 McCune Foundation, \$12,000 to teach watershed monitoring methods to Santa Fe Indian School in the formulation of a Tesuque Watershed Management Plan (with R. Schrader)

1995 Fulbright Scholar grant, \$12,000 for teaching and research at the Escuela Politecnica Nacional, Quito, Ecuador. Establishment of a convenio between the Escuela Politecnica Nacional and UNM.

1994 NM Office of the State Engineer, \$18,000, policy analysis legal and technical incentives for municipal and agricultural water conservation in NM (with G.E. Hall, UNM Law School).

1993-97 NM Dept. of Game & Fish, \$192,000 to develop environmental education program for high school teachers to monitor water quality and watershed health (NM Watershed Watch).

PAST EMPLOYMENT

1989-93 Hydrologist, John W. Shomaker, Inc., Santa Fe. Environmental impact assessment, water quality modeling, water policy and planning analyses, watershed management.

1982-89 Chief Hydrologist, New Mexico State Engineer Office, Santa Fe. Directed and coordinated hydrologic analyses concerning the development, conservation, adjudication, protection and distribution of the State's water resources. Supervised staff of eight. Water quantity and quality modeling of watersheds and ground water.

1979-82 Environmental Engineer, New Mexico Environmental Division, Santa Fe. Analyzed scientific, economic, and policy aspects of environmental regulations. Performed air and water quality risk assessments of uranium tailings restoration plans.

1978-79 Research Associate, Water Resources Research Institute, University of British Columbia, Vancouver. Evaluated hydrologic, environmental and economic impacts of the forest industry on watershed health.

1975-78 Watershed Scientist, Food and Agriculture Organization of the United Nations, Ecuador and Nepal. Recommended water-resource management policies to the Ecuadorian government and completed country-wide survey of land and water conservation problems. Formulated watershed management plan and benefit-cost analysis for Ecuador's largest reservoir. Surveyed 40 watersheds in Nepal to establish project priorities. Prepared land use, erosion control and reservoir management program for a critical watershed. Water resources economic development projects in Latin America and Asia.

1974-75 Project Team Leader, Edwin Reid and Associates, Vancouver, British Columbia. Analyzed economic and environmental impacts of resource planning alternatives.

1970-74 Principal Investigator, Reservoir Management Project, Water Resources/Pollution Control Section, Department of Civil Engineering, University of British Columbia. Formulated environmental and economic policies for the restoration of a polluted reservoir in British Columbia. Doctorate degree in water resources engineering.

1967-69 Research Hydrologist, Cold Regions Research and Engineering Laboratory, Hanover, NH. Research on the water quality and mixing regime of dimictic lakes and high-elevation snow hydrology in Yukon Territory

1964-66 Research Assistant, Hydrology, Watershed Management and Rocky Mountain Forest and Range Experiment Station, Colorado State Univ. Groundwater research, Medicine Bow Mountains, Wyoming for sustainable flow regime.

CONSULTANCIES

2002 Rangeland Erosion and Sedimentation Survey, Chilton Ranch, Arivaca, Arizona.

2000 Rangeland Riparian Health and Erosion Analysis, Chilton Ranch, Arivaca, Arizona.

1997 Agricultural Conservation Planning, Green Project, El Salvador, to develop local participatory methodology and economic assessment procedures for land use development in a rural watershed demonstration area.

1994 Watershed Planning, FAO/World Bank, Venezuela. Evaluated technical and economic parameters of a watershed management plan for the Cojedes Basin.

1992 Environmental Advisor, US Agency for International Development, Sri Lanka. Evaluated water quality impacts of Mahaweli water resources project.

1991 Watershed Planning, Irrigation Support Project for Asia and the Near East/US Agency for International Development, Sri Lanka. Prepared national watershed management policy and procedures for economic analysis. Government of Sri Lanka and USAID.

1990 Watershed Planning, Irrigation Support Project for Asia and the Near East/US Agency for International Development, Morocco. Analyzed economic and financial impacts of watershed conservation alternatives on water quality and sedimentation rates in Atlas Mountain reservoirs. Compared the benefits and costs of upstream watershed management with downstream improvements in irrigation efficiency using USAID criteria for economic evaluation.

1988 Watershed Management and Hydrology Planning, Food and Agriculture Organization of the United Nations, Nepal (three months). Conducted country-wide evaluation of water resources research and recommended national-level research policy. Trained personnel in Dept. of Soil Conservation and Watershed Management in the establishment of experimental watersheds and research methods for analysis of hydrological data.

1988 Water Resources Evaluation, USAID, Nepal (two months). Evaluated hydrologic, engineering and economic aspects of water supply, irrigation, reforestation, grazing management and erosion control components of AID project.

1988 Watershed Management Lecturer, Food and Agriculture Organization of the United Nations, Morocco and Rome Presented invited paper to FAO/World Bank seminar on national watershed management policy for Morocco.

1982 Environmental Consultant, U.S. Agency for International Development, Quito, Ecuador. Prepared analyses of Ecuador's watershed conservation and reservoir management priorities.

- 1981 Environmental Consultant, Fundacion Natura, Quito, Ecuador. Analyzed environmental issues in watershed management and reservoir projects.
- 1980 Professional Associate, East-West Environmental and Policy Institute, Honolulu. Prepared cost-benefit publication on watershed-management planning in Nepal.
- 1980 Environmental Consultant, Fundacion Natura, Quito, Ecuador. Analyzed Ecuador's environmental priorities in water resources projects.
- 1979 Professional Associate, East-West Environment and Policy Institute, Honolulu. Prepared publication on the economics of watershed and reservoir management in Ecuador.
- 1972 Environmental Consultant, Canadian Department of Environment, Vancouver, British Columbia. Economic and environmental impact analysis of hydroelectric project.
- 1964 Geohydrologist, U.S. Agency for International Development, Bahia, Brazil (three months). Preparation of economic feasibility studies for small industries.

DISSERTATION AND THESIS

A model of the phosphorus cycle and phytoplankton growth in Skaha Lake, British Columbia. Department of Civil Engineering, University of British Columbia, 161 p. (PhD dissertation).

Geohydrology of a mountain peat wetland, Medicine Bow Mountains Wyoming. Department of Watershed Management, Colorado State University, 113 p. (Master of Science thesis).

PUBLICATIONS AND REPORTS 2003-2012

Peer-reviewed book:

The next generation of watershed management programmes and projects. 2006. Food and Agriculture Organization of the United Nations Forestry Paper 150, Rome, 128p. (with P. Warren, T. Hofer, D. McGuire, B. Kiersch, S. Bernini).

Peer-reviewed journal and book articles (in preparation):

Ecological services of New Mexico acequia systems. 2013. Journal of Ecological Restoration (with J. Rivera, A. Miller and M. Piccarello).

The enduring role of Sand County Almanac in community planning: thinking like a mountain. 2013. In *Rethinking Leopold's Land Ethic: Emerging Cultures of Sustainability* (W. Forbes and T. Trusty, ed.).

Peer-reviewed journal articles (published):

Modeling water use in the Rio Hondo watershed. 2012. New Mexico Journal of Science 46:39-64 (with S. Sabu, J. Rivera, B. Thomson and V. Tidwell).

Viability of living roof systems in Albuquerque, New Mexico: thermal performance, water efficiency and carbon sequestration potential. 2012. International Journal of Architecture, Engineering and Construction (accepted for publication in September; with N. Ubechel).

Aldo Leopold: Albuquerque's first environmental planner. 2010. Western Planner 31(7): 10-12. (with M. Schmader).

A watershed conservation success story in Nepal: land use changes over 30 years. 2009. Waterlines 28(1):29-46 (with J.P. Fleming).

Following in Leopold's footsteps: revisiting and restoring the Rio Gavilan watershed. 2006. Journal of Ecological Restoration 24(1):25-31 (with W. Forbes).

A watershed management framework for mountain areas: lessons from 25 years of watershed conservation in Nepal. 2006. Journal of Environmental Planning and Management 49(5):1-19 (with S. Achet).

Volunteer watershed health monitoring by local stakeholders: New Mexico Watershed Watch. 2003. The Journal of Environmental Education 35(1):27-32.

Book reviews in peer-reviewed journals:

Review of "Environmental Land Use Planning and Management" by John Randolph. 2005. Journal of Planning Education and Research 24(4):252-253.

Review of "The Colorado Plateau: Cultural, Biological, and Physical Research". 2006. New Mexico Historical Review Winter: 115-117.

Conference proceedings:

The greening of a watershed in Nepal. 2011. Proceedings 40th Annual Conference on South Asia. Madison, Wisconsin, 9p. (with J.P. Fleming).

Valuing urban green space: mapping a neighborhood watershed in Albuquerque, New Mexico for environmental benefits. 2004. Proceedings Environmental Design Research Association, Design for Diversity Conference, Vancouver, British Columbia (abstract).

Professional report:

Water supply threat assessment for the El Rito watershed. 2012. Report prepared for the El Rito Regional Water and Wastewater Association, El Rito, New Mexico (with S. Fernald).

ADDITIONAL PUBLICATIONS AND REPORTS

Review of "Great River of the West: Essays on the Columbia River". 2002. New Mexico Historical Review, Fall.

Transfer of development rights as an option for land Preservation in a historic New Mexico community: La Cienega La Cieneguilla, New Mexico. 2001. Natural Resources Journal 42(2):134-148 (with C. Ageton, D. Myers-Taylor, R. Messenger, J. Marmon, J. Rivera, A. Jandacek, M. Santelli, S. Moeller and L. Vitelli).

Community-based ecological monitoring: a rapid appraisal approach. 2001. Journal of the American Planning Association 67(4):456-466 (with D. Henkel).

Preservation of a riparian acequia landscape: transfer of development rights in La Cienega/La Cieneguilla, New Mexico. 2001. Proceedings of Fifth Annual Conference of the NM Riparian Society: Riparian Success Stories in New Mexico, 7p.

Ten steps to evaluate rangeland riparian health. 2001. Rangelands 23(6):22-27 (with D. Galt and J. Holechek).
