The Pyramids of Giza are considered one of the greatest wonders of the world. Gerald Massey (29 May 1828 – 29 October 1907) was a poet and author of spiritualism. He was best known for his book *Ancient Egypt: The Light of the World*. He soon died after the book was published, but it remains a staple today in academic circles. The ancients knew the Earth was a power station giving her children free energy. As a by-product of the Earth's free spin, her crystals vibrated frequency sound waves. The elite worked through secret societies that spanned the globe. There is a phrase that whoever wins the wars owns the history. As you can see the Pyramid of Giza is more than just a spiritual symbol or a show of great power; it is a transformer of great power!
