Body Language Reading Guide. How to Interpret Your Dreams Guide. Self Hypnosis Downloads. If you want to understand the human mind, you must begin with your own. Psychology has handicapped itself by trying to imitate other sciences where the mind of the observer, the scientist, appears to be less relevant. In psychology, this is not possible because the only mind directly accessible to anyone is one's own mind and observing it assiduously provides a veritable treasure trove of understanding. Recently I was interested in Human Psychology and behaviour and wished to read about it. That's when I stumbled across these two books. My suggestions may seem different and might not be sort of books that you want as a reference for any academic or research purposes.
