In addressing ethical issues in the neonatal intensive care unit (NICU), at all times consider the goals of specific monitoring, diagnostic tests, therapies, or research protocols that are administered. Center the goals of care on the patient and the family. The patient is treated, but the family must live with the long-term consequences of the daily decisions made in caring for the baby.Â Tyson JE, Parikh NA, Langer J, Green C, Higgins RD, National Institute of Child Health and Human Development Neonatal Research Network. Intensive care for extreme prematurity--moving beyond gestational age. N Engl J Med. Background: Health care givers, particularly midwives, perinatal and neonatal nurses, face ethical issues possibly because of their interactions with patients and clients in the reproductive age groups. These issues are multiple and quite complex. Aim: To identify the ethical issues related to maternal and child care, the challenges faced by the nurses and to prefer strategies for decision making. Methods: This is a literature review on ethical issues in maternal and child health nursing, challenges faced by maternal and child health nurses and strategies for decision making. Literatures relat
