"Indian sign language is very scientific and has its own grammar, but lack of awareness has meant that many deaf people are not even aware of institutions where they can learn it and equip themselves for public communication," she said. According to the latest census, India has five million deaf and hearing impaired people. But the country only has about 700 schools which teach sign language. And unlike English or Hindi, it is not written. Image copyright Getty Images. SIGN LANGUAGE, INDIAN, also known as Plains Sign Talk, an intertribal language of gestural signs used by American Indians of the Great Plains region. Although origins remain obscure, Spanish explorers documented its use on the southern Plains during the sixteenth century. Extensive trade networks and political alliances brought tribes who spoke many different languages into regular contact with each other.
