Explorers of North and Central America. AMUNDSEN, ROALD Roald Amundsen (1872-1928) was a Norwegian polar explorer who was the first person to fly over the North Pole in a dirigible (May 11-13, 1926) and was the first person to reach the South Pole. Amundsen and his small expedition reached the South Pole on December 14, 1911, traveling by dog sled. The exploration of North America by non-indigenous people was a continuing effort to map and explore the continent of North America. It spanned centuries, and consisted of efforts by numerous people and expeditions from various foreign countries to map the continent. See also the European colonization of the Americas. According to the Sagas of Icelanders, Norse sailors (often called Vikings) from Iceland first settled Greenland in the 980s. Erik the Red explored and settled southwestern Greenland He ended up landing in North America, but just a short distance to the north of America " in Newfoundland, Canada. He had a crew of 35 men who explored the area. In 1963, researchers discovered a settlement in the area that looked like it was a Viking settlement. It dates back to more than 1000 years old, lending credibility to the story that Leif Ericsson actually founded and settled in the Americas. Asian Explorers. There are some documents that state that Asian explorers may have been the first ones to discover and settle in the Americas. Chinese admiral Zheng is believed to be one of the f
